Victim Advocacy

Victim advocates provide information, guidance and support to victims and will respond to incidents of domestic violence 24/7 through the helpline 703-350-1688. There are two reporting options for domestic violence. Unrestricted reporting allows victims of domestic violence to receive support, guidance and intervention to include command and law enforcement support. Restricted reporting allows victims to receive confidential support without law enforcement or command intervention.

Prevention and Education

Family Advocacy Program has a wide range of prevention and education services for the whole community to include anger and stress management, parenting education, healthy relationships and unit and community education briefs.

Family Advocacy Program

Promotes healthy military family development through the prevention, identification, treatment of intimate partner violence, and child abuse and neglect. FAP stresses early intervention and education to protect victims and increase family competencies. FAP aims to prevent and or reduce incidences of family violence and to increase operational readiness by improving family relationships. Services include:

- Information and Referral
- Individual and Family Assessments
- Case Management
- Outpatient Counseling Services
- Groups for Men and Women
- Stress First Aid Support Team (SFAST)

New Parent Support Program

NPSP is a voluntary, strength-based parent education program delivered through support, secondary prevention, home visitation services, parent support groups, and resource and referral. Expecting parents and families with children from birth to five years of age are eligible. Services include:

- Information and Referral
- Home Visitation
- Breastfeeding Lounge
- Lactation Consultation
- Groups and Classes
- Women Infant and Children (WIC)

Consolidated Substance Abuse Counseling Center

CSACC promotes operational readiness, health and wellness through substance abuse prevention, early intervention, and treatment services. CSACC provides a continuum of substance abuse treatment and prevention services that are individualized and tailored to meet the specific needs of service members, retirees and family members who are 18 years and older. Services include:

- Substance Abuse Screening
- Assessment and Referral
- Outpatient Substance Abuse Treatment
- Substance Abuse Individual, Group, Couples, and Family Counseling
- Early Intervention Services
- Alcohol and Drug Prevention Education
- Unit Trainings and Briefs
- Substance Abuse Family Support Groups

Marine Intercept Program

MIP is a suicide prevention initiative to provide support and resource assistance to Marines/ Sailors who have had recent issues around suicidal thoughts or attempts. CCP counselors coordinate with command to reach service members to ensure they are linked to the appropriate behavioral health resources, assess current suicidality, completes safety plans as needed, and provides support through caring contacts.
